Key words: Natural solution, Chronic tiredness, Stressed, Be overwhelmed.

Hello there, welcome to Evergreen Herb specialists team.

There's something important and interesting we would like to share with you about what we experienced in our practice. Chronic tiredness is a very common condition people have, and we have seen how hard and desperately they have tried to get rid of it. Working with our clients together, they have shared with us their fears and frustrations – which all seem to echo one another:

- They enjoy life, but their busy and hectic lifestyle can be overwhelming.
- Work is the major contributor to their tiredness and stress. Sometimes, after a long day at work, they are mentally and physically drained. They feel guilty because they just don't have the energy to listen and be attentive to their loved ones.
- Many feel so stressed during work that they find they need to drink 3 cups of coffee by the afternoon just to get by. As the years roll by, they have noticed their ability to tolerate stress has declined massively and find themselves more tired during the day.
- More importantly, they find that their busy lifestyle keeps them from recharging, having a good rest, taking a walk in the park or simply disconnecting from all the distractions and responsibilities in their life.

Despite their differences in careers, background, family and personality, all of our clients desired to be able to do the same things:

- ✓ They do not want to be tired all the time and stressed out at work. Work should empower and energise us instead of draining us, physically and mentally.
- ✓ They want to have the energy to listen and be attentive to their family and friends.
- ✓ Lastly, they want to have the energy to do the things that are important to them, instead of putting them off for things like work or urgent matters.

Being rejuvenated is cool!

If you are like our clients and/or have tried to find a solution to the never ending chronic tiredness, but haven't had any positive results, or even worse, have given up on trying to find a solution to chronic tiredness. In fact, many have told us that the chronic tiredness they once felt had gone completely, after taking the personally tailored herbal packages. Evergreen Herb formulas can help you achieve the goal of becoming more energetic and having more energy to do more activities that you love.

Evergreen Herb Formulas - Clinically Proven

Chronic tiredness gradually builds up after decades of physical and/or mental overwork, constantly pushing our bodies to its physical and mental limits without adequate recovery. This leads to a continuous decline in our bodies' "reserves", therefore leading to severe chronic tiredness and a lack of physical and mental stamina.

If you or your loved ones have noticed that the chronic tiredness is getting in the way of being all that you could be... then we ask you to make a personal commitment to take the first step towards the solution.

A note on well-being and holistic health care...

In our point of view, health is not simply an absence of illness. Our philosophy on health and of our practice is that health is a state of both mental and physical well-being.

Our modified herbal formulas aim to restore the internal imbalances of the body which result in illness and target both symptoms and root causes. This ensures holistic health care and results that actually last!
