

King herb - Barbary Wolfberry
 Traditionally used since 1578 AD to nourish the liver, kidney and blood. Randomized and placebo-controlled clinical studies have revealed that taking wolfberry can increase energy levels/stamina/athletic performance, reduce feelings of fatigue/tiredness including after exercise. It also exhibits anti-aging effects and neuroprotective effects in addition to being strong anti-oxidant in protecting against various peroxidation related conditions (1).

King herb - Chinese Angelica
 Traditionally used since 1616 AD to enrich blood, promote blood circulation and to treat chronic constipation in the elderly, as well as menstrual disorders when used as a female remedy. Modern scientific researches have verified its effect of promoting blood circulation and detoxifying, known as a beauty tonic for clearing blemishes and making skin have a healthy glow. Chinese Angelica is also an anti-oxidant and has radio-protective, neuroprotective and anti-aging effects (2, 3).
